

As part of Vantive's commitment to responsible medication and medical sharps disposal, Vantive ULC is proud to support Medications Return Programs and Sharps Collection Programs in Canada, managed by Health Products Stewardship Association (HPSA). These programs provide a safe and convenient way for consumers in Canada to dispose of unused or expired household medications and medical sharps in an environmentally responsible manner.

To learn more about properly storing and handling pharmaceuticals and medical sharps or finding a Canadian collection location near you, we encourage you to visit the HPSA website at www.healthsteward.ca.
